

# AGITATORS FOR BIOLOGICAL SLUDGES

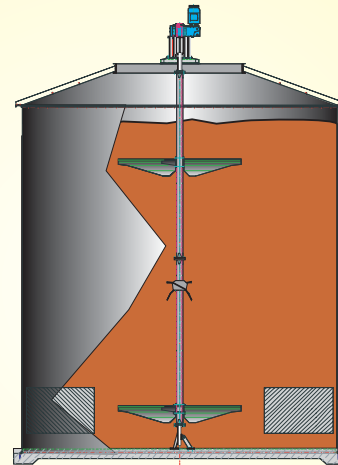

OUR SKILL IS BASED UPON OUR KNOWLEDGE

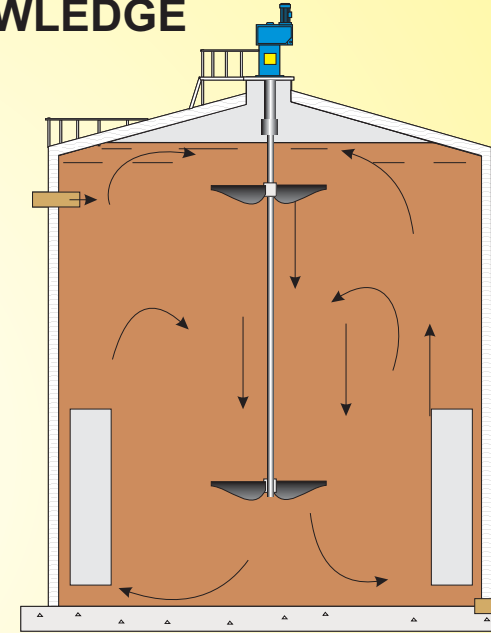

Recipient

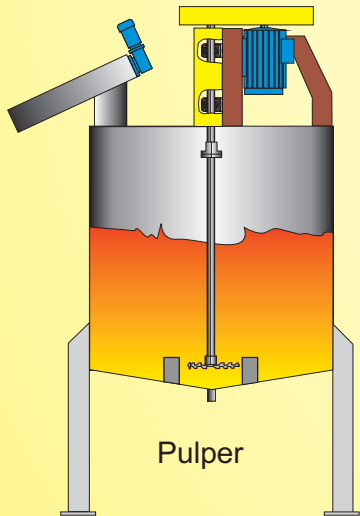

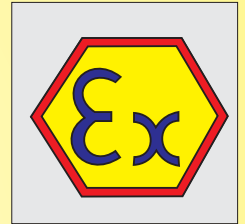

Hygienisation

Buffer Tank

Fermenter

Pulper

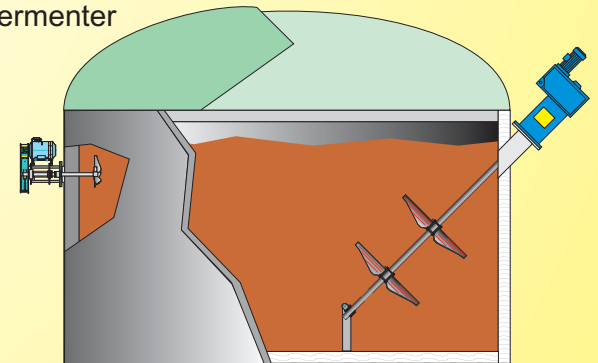

Directives and standards:

The Directive 94/9/EC contains essential safety and health requirements for equipment, components and protection systems to be used in potentially explosive atmospheres.

The user is according to the directive 1999/92/EC responsible for classifying the area of use into zones so that the manufacturer can according to implied category manufacture the appropriate equipment.

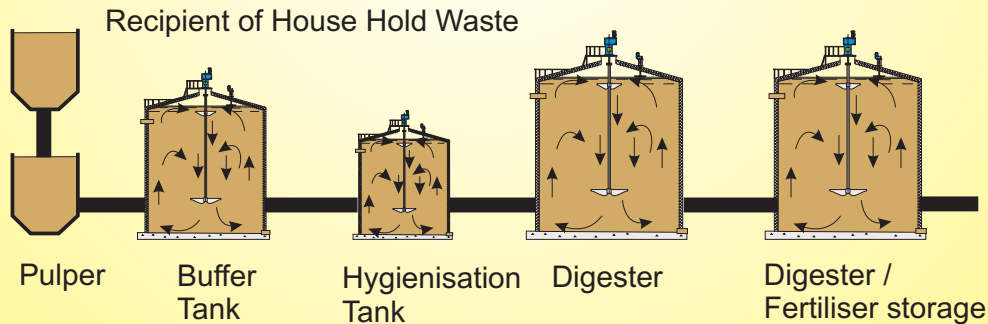

STAMO manufacture DNV-ATEX-Approved agitators

Hold-up Tank

### Production of Methan Gas and Bio Fertiliser
